

AT WAR THEN AND AT WAR NOW

HOW AMERICA "ENDS WAR":

Oct. 2023: US sends \$21.7 BILLION to Israel's genocide in Gaza, killing more than 67,000 Palestinians and displacing over 1.9 MILLION.

Sep. 2025: US begins strikes on boats from Venezuela, killing 163 people to date.

Feb. 2026: US-Israeli operations in Iran attack oil infrastructure and damage 10,000 civilian sites, killing over 1,937 Iranians. Israeli attacks in Lebanon have killed over 1,000 Lebanese and displaced 1.2 MILLION.

All alongside assaults on the rights of Americans at home.

Join Mideast Just Peace and NMC YDSA for a panel discussion on US policy and its economic origins.
